

Create a shirt design in the following manner. Using your own block styled letters, stack each word above the other, like the example given. Choose how you want to place each word, if you want each word slightly rotated, or askew from each other. Draw only an outline. Do not color in the words. The coloring will come later. Fill the whole space provided below.

WAY 2
COOL
ALGEBRA

A large empty rectangular box with a black border, intended for the student to draw their shirt design. The box occupies most of the page below the instructions and the example.
